### ROOSEVELT HEARS CHEERS FOR BRYAN.

Republican Vice Presidential Nom-

At Norwich, N. Y., a Regular Democratic Demonstration Called Forth a Rebuke -Teddy's Talk.

REPUBLIC SPECIAL.

Norwich, N. Y., Oct. 23.-Governor Roose velt's second day of his tour of the State ended here to-night. When his train pulled In here there was a Bryan demonstration from the crowd, which called forth a rebuke from the Governor, It was raining very hard, and the Governor, going out to greet the crowd, was met with jeers, This did not have a very soothing effect upon his temper, after a hard day's work, during which he delivered fifteen speeches.

As soon as the Governor appeared on the platform of his car, he was saluted by a tumult of cheers for Bryan. He was so astonished that he made no effort to still the noise for several minutes. Then, becoming irritated, Mr. Roosevelt called everal times for order, but without avail. Ruising his voice, he addressed the crowd as follows:

"I can only say that I hope if Mr. Bryan ever comes this way he will not meet with such discourteous treatment as I have been subjected to to-night. I hope no Re-publican will be guilty of insulting Mr. Bryan as I have been insulted." jeering continued, Mr. Roosevelt

ok a finger at the boys on the fringe of the crowd and said:
"These silly little boys who are making "These silly little boys who are making this disturbance should not be allowed out of doors. It is an ungentiemanly thing to do, and the young boys who are doing this plainly show that they are kids and should not be allowed out without their mathems."

Governor Rossevelt addressed a large meeting later in the evening. He will tour the Mohawk Valley, winding up at Utica row night. Hostise to Republicanism.

There is a great deal of hostility to the Republican ticket in this part of the State which does not show itself on the surface. At Arkyllie, where one of the best crowds of the day was gathered and where the of the day was gathered and where the Governor spoke at some length about the Philippines, one of his listeners, a sturdy farmer, sand to his neighbors:

"Yes, it's all very wed for him to talk about nothing the Philippines, out I notice he aim t there. I had a son in Cuba, and now they've taken him to the Philippines; but Mr. Roosevelt did not want to go there, I guess if he was there he without the so abalous to hold them."

Pine Hill turned out an enthusiastic female contingent to welcome the Governor. All were his picture in corsage or nat. The men carried banners inscribed with legends such as these.

such as these; "No to-cent dollar for us."

"No to-cent dollar for us."

"No to-cent dollar for us."

"Pine Hill for Teddy in 1981."

The latter legend pieused the Governor's party greatly. The young ledles testified their approciation by screaming "Teddy forever," and waving their flags.

At stafford the old men marched from the station to the opera-house, the young men rode in carriages beliand the Governor, and the women and children and babies monopolized all the seats in the opera-house, where the meeting was held.

"In a speech he made yesterday," said Governor Rooseveit, "Mr. Bryan said that if elected he proposed to put on the free list all trust articles. Now, this would not reach a corporation like the Standard Oil Trust, but it would reach the Sugar Trust and also every grower and manufacturer of beet sugar in this State, and cut the throats of individuals interested in this industry, I ask you, is it right to mare men who perask you, is it right to injure men who per-haps have prospered too much and thus rum everybody eise? Mr. Bryan also promises action by the Federal Government in regard to the trusts. But I tell you that his first remedy is bad policy and his second is marked by insincerity."

"There are only two principles known in the sovernment of nations—one is brute force, the other is the consent of the government, and the property of the standing, not for our system of government, but for the same conditions that prevailed there under Spanish rule for 200 years." Governor Altgeld read a letter from a private soldier in Troop G, Eleventh U. S. V. Cavalry, in the Philippines, in which the letter told of the killing of women and children attending a wedding party during a successful effort to capture a Filipin General and said that the United States could send armies to the sreat European countries and if those countries were subdued the United States would have the same right there as in the Philippines, the right of brute force.

No one doubted that heart disease had killed him until his widow remarried a little less than three months later. It was found that Mrs. Bull was sole helr her husband's fortune, and it was considred strange that she should marry so soon after he had passed away. At that time the case was hild before Captain of Detectives Miller, and he detailed two detectives to investigate the matter, but they could find nothing to warrant action by the Coroner. Thereafter the relatives of Doctor Bull fol-lowed out the case and have now placed the result of their investigation in the

hands of Coroner Bugan.
The estate left by the artist is estimated at \$100,000. It is alleged that Doctor Bull requently hought poison in the neighbor-good where he lived, and the books of Druggist Osterload are now in the posses-sion of the Coroner. The analysis, it is said, will be made in a day or se, although the Coroner refuses to say when the body will
